Kenmore Air Launches New Seaplane Flights Between Friday Harbor and Downtown Victoria, B.C.

Direct flight between Friday Harbor Marina and Victoria Inner Harbour Begin May 16th

SEATTLE, Wash.— Kenmore Air, the Pacific Northwest's leading provider of seaplane flight services, is thrilled to announce the launch of new direct seaplane flights between Friday Harbor Marina and Victoria's Inner Harbour, starting May 16th, 2024.

This new route signifies an important expansion of Kenmore Air's seaplane flight network, providing travelers with a convenient and scenic connection between two iconic destinations. The seaplane flights will operate daily through November 1 of this year, offering a quick and enjoyable 30-minute journey.

Passengers on these flights will experience the unparalleled beauty of the Pacific Northwest from a unique vantage point. Friday Harbor Marina, with its picturesque idyllic island surroundings, and Victoria's Inner Harbour, known for its unique blend of historic charm and modern vibrancy, are now seamlessly connected through Kenmore Air's reliable and efficient seaplane services.

Kenmore Air's seaplane flights will depart Friday Harbor Marina at 9am and 4pm and depart Victoria's Inner Harbour at 10am and 5pm. Flights out of Victoria start at \$129 per person USD one-way.

"This new route is a testament to our commitment to enhancing connectivity and providing our passengers with exceptional travel experiences," said David Gudgel, President of Kenmore Air. "We are thrilled to offer another convenient and scenic connection between two iconic destinations in the Pacific Northwest."

In January 2024, Kenmore Air announced an expansion of their partnership with the Puyallup Tribe of Indians, with planned scheduled seaplane flight service between [Tacoma and San Juan Island](#), also starting on May 16th. The addition of the Victoria seaplane service leg provides a wide array of opportunity for easy international travel for both U.S. and Canadian travelers looking to visit the San Juan Islands and the south Puget Sound region.

About Kenmore Air

Founded in 1946, Kenmore Air is the largest seaplane airline in the United States, flying over 90,000 passengers annually in its iconic de Havilland Beaver and Otter aircraft. In addition to providing scheduled flights to over 45 water-based destinations throughout the Pacific Northwest and British Columbia, Kenmore Air's wheeled aircraft operation, Kenmore Air Express, offers scheduled service between Boeing Field and the San Juans aboard modern Cessna Caravan aircraft. In addition to their scheduled service, Kenmore Air and Kenmore Air Express offer charter service to many other destinations.
